VUEJS

Adobe Photoshop Adobe Illustrator Adobe InDesign Adobe XD

Git

Web Development HTML 5 CSS JavaScript

Microsoft Office

NodeJS and ExpressJs

JSON

CSS

HTML

MySQL

JavaScript

Bootstrap

SQL

Github

Object-Oriented Programming

JQuery

Web Development

RESTful api

Linux

PHP

Javascript

XML

C

HTML5

MongoDB

C++

Unit Testing

TypeScript

Jira

Object Oriented Programming (OOP)

DRIVING LICENCE

PROJECTS

Portfolio Website

My personal portfolio website: <https://n3rdz0ne.ro>

Programming languages used: HTML, Javascript, CSS.

The website is secured with a SSL certificate.

 <https://n3rdz0ne.ro/>

Angular character/item system with inventory

This is my angular app based on a game system with characters and items that you can purchase(for free). No db connected to the app so the inventory will not save the state of it after refresh.

 <https://stackblitz.com/edit/angular-ivy-y4rgap>

Product Presentation Website

I made a product presentation website for selling items on Amazon.

 <https://n3rdz0ne.ro/Stan/index.html>

ORGANISATIONAL SKILLS

Organisational skills

Leadership based on my personal web project(a team of 4 people)

COMMUNICATION AND INTERPERSONAL SKILLS

Communication and interpersonal skills

Good communication skills gained from my Game Tester job

JOB-RELATED SKILLS

Job-related skills

Jira, Bug tracking, Git, Bitbucket, Bloomberg, iOS, Android, Windows, Linux, Pi, Hardware management
